**Objectives:** Looking for an ML internship to make a professional base as an ML Engineer, utilize my Machine Learning skills for solving industry problems and gain an hands on experience with them.

### Academic Record:

- Bachelor of Science in Computer Engineering from University of Engineering and Technology (UET), Lahore, 2018-present(expected pass put 2022)  
DAE(Electrical) from Govt College of Technology, Sahiwal, 2015-2018. Grade:A+

### Certifications:

- Deep Learning and Neural Networks by deeplearning.ai from Coursera (May,2020)
- Improving deep neural networks: Hyperparameters tuning, Regularization and Optimization by deeplearning.ai(june,2020)
- Structuring machine learning projects(june,2020)
- Natural Language processing by Adaptilab from educative.io(july,2020)

### Projects:

- Developed a Cat Recognition System and titanic prediction system using basic ML concepts as part of programming assignment(May,2020)
- COVID - 19 Prediction using Machine Learning.(Sep,2020)
- Made University Admission Prediction System using Machine Learning (june,2020)
- Developed a Library Management System using Cpp OOP (December,2019)

### Professional Skills:

- excellent programming skills
- good in designing a basic predictive systems using ML
- good basic front machine learning skills
- extraordinary skills of dealing with clients
- excellent communication and convincing skills
- Video editing
- SEO
- Kaggle expert

### Activites:

- AWS Community Pakistan, IAENG, kagglePakistan
